

Project under Construction

PROJECT NAME: **COUNTRY CLUB RESERVOIR No. 1 REPLACEMENT PROJECT**

PROJECT ADDRESS: 1927 Country Club Drive.

PROJECT PUBLIC BENEFIT: The existing reservoir is a partially buried potable water reservoir that was originally constructed in 1924. The tank foundation and walls are constructed of cast-in-place concrete and the roof is comprised of an aluminum dome that was added in the 1970s. Based on the conclusion of a dive inspection in 2003 and a structural assessment in 2008, the existing reservoir warranted replacement. Upon completion, the project will increase the reliability of your water system, and increase water quality of this vital reservoir.

PROJECT DESCRIPTION: This project is limited to removal of the existing aluminum dome and partial demolition of the visible portion of the existing concrete reservoir, the installation of a new steel reservoir inside the remaining portion of the concrete reservoir and installation of the aluminum dome.

CONTRACT AMOUNT: \$864,000.00

SOURCE OF FUND: Water Rates

START DATE FOR CONSTRUCTION: 06/07/10

ANTICIPATED CONSTRUCTION TIME: 200 Calendar Days

PERCENT COMPLETION AS OF 01/15/10: 0% (updated every 4 weeks)

EXPECTED COMPLETION DATE: 12/27/10

NAME OF CONTRACTOR: Paso Robles Tank, Inc. (951) 925-2288
